DETAILED ACTION

1. This application has been examined.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 1-7 are rejected under 35 U.S.C. 102(e) as being anticipated by Muschett et al.

Art Unit: 2174

4. Regarding claim 1, Muschett et al show the method of launching a selected application on a computer (abstract, column 1 lines 7-18), including: accessing a registry to determine which which applications are installed and where they are installed (column 8 lines 5-17 and 30-45), creating a HTML file specifying applications that are installed (column 9 lines 7-26), displaying the HTML file in a browser so that a user can select to launch any one of the applications that is installed (column 6 lines 15-25, column 7 lines 50-67), and if the user selects the application, determining the location of the selected application from tags in the HTML file and launching the selected application without allowing the browser to navigate to the application (column 9 lines 20-40 and 50-66).

5. Regarding claim 2, the HTML file lists applications that are known but not installed and the file is displayed in the displaying step so as to show applications that are known but not installed with a specific visual attribute (column 8 lines 55-65).

6. Claims 3-4 and 6-7 show the same features as claims 1-2 and are rejected for the same reasons.

7. Claim 5 shows the same features as claim 1 and is rejected for the same reasons.
